## FALLACIES IN LOGIC – PART TWO

(clip and save for future reference)

In Part One we looked at **four fallacies** (tricks) used to win arguments without using **facts**. Fallacies may make an argument *feel* right and true, even if it is not.

The four fallacies were:

1. **Ad Hominem** – Attacking the person instead of the idea they are talking about.
2. **Straw Man** – Changing someone's words, then attacking your version of what you say they said
3. **Red Herring** – distracting the audience by changing the topic
4. **Appeal to Ignorance** – saying something is true because it hasn't been proven **false**.

**Here are three more:**

**Post-Hoc Fallacy (Causal Fallacy)** – **saying that one thing happened after another, therefore the first thing caused the second.** This shows up in superstition or magical thinking.

For Example:

- "Every time I wear my green shirt, the Packers win.  
The time I wore my blue shirt, they lost."
- "As the government gets bigger, the gap between rich and poor grows, people are less healthy and more people are homeless."  
→ "People who go out at night often get Malaria.  
So, breathing the night air causes Malaria."  
(Actually, it is the mosquitos that come out at night to bite and spread it.)

**False Analogy Fallacy** – **Comparing things that are alike in one way, and then saying they are also alike in other ways.** Analogies help explain an idea, but are not facts in themselves.

For example:

- "A government is just like a big business. You just need to keep your accounts in order."
- "Children are like dogs. You have to control them and discipline them."
- "Those who oppose us are like gangrene on a body – they have to be cut out for us to survive."
- President Biden once said, "I created more jobs in two years than any president created in four years." (That assumes everything else was the same in those years and other events didn't affect job growth.)

**Appeal to Authority** – **Using what a respected or recognized person says as proof, even though that person may not be an expert about the topic.**

For example,

- "I heard that a General in the army says that aliens exist.  
So, it must be true."
- "Brad Pitt says that climate change is happening.  
That's all the convincing I need."
- "A doctor I know says that COVID occurs because of a bad diet not a virus."
- "Eight out of ten dentists prefer this brand."

You have to measure the "authority" that is cited against who they are (if you even know) and what they really know about the subject.

MORE fallacies coming in part 3

**Thank You**

The family of Terry Holub would like to thank everyone for being there for us during this difficult time.

A special thanks to all who brought food, sent cards and for all the kind words at Terry's Celebration of Life.

A special “thanks” to “Bug” for the very special words at the Cemetery. Also to the American Legion Color Award.

“Life's journey is not to arrive safely at the grave in a well preserved body, but rather to slide in sideways, totally worn out...shouting “Holy Cow”...what a ride!”

That was Terry. He will be dearly missed by his family and friends.

**AND GOD SAYS . . .**  
**No one could buy or sell unless he had the mark . . . (Revelation 13:17)**

Florida's tourism chief, Bryan Griffin, recently turned down an invitation from the World Economic Forum to their upcoming Urban Transportation Summit in San Francisco. Apparently his response to their invitation is virtually unheard of especially for the reasons he cited.

According to Alex Nitzberg's report on Fox News, October 3, 2025, Griffin wrote back to the globalist organization stating, ""I'm going to decline participation. The World Economic Forum's values and stated objectives do not align with the State of Florida, including the WEF's efforts to transform society through top-down government regulations and institute dangerous programs like digital IDs and Centralized Bank Digital Currencies [CBDC]."

It seems that Florida for some time now, under the leadership of Governor Ron DeSantis, "has been methodically building defenses against exactly the kind of policies the World Economic Forum promotes. Back in 2023, Governor DeSantis successfully pushed legislation through the state legislature to ban Central Bank Digital Currencies within Florida's Uniform Commercial Code." (See DeSantis Daily.com, October 6, 2025)

DeSantis understands the "CBDCs aren't about convenience or modernizing the financial system. They're about control."

"Florida Republican Representative Byron Donalds spelled out the real danger during a congressional session this past July." He said, "CBDCs would enable the Federal Reserve to examine and monitor all stablecoin transactions in the United States,"

I have to wonder as I read about the CDBC, is the ground-work systematically being laid to make the above prophecy a soon to be fulfilled prophecy? It seems to me, that never before in all of history has there been such a mechanism in place to realistically provide for this prophecy to be fulfilled. And if this is so, it means that the return of Christ is very near indeed. Check it out and see what you think.

**Clark County Humane Society's Pet of the Week**

**“CLEO”**  
Cleo is the CCHS Pet of the Week!

Cleo came to CCHS as a stray towards the beginning of September from the Neillsville area. This happy Husky is about 5 years old and weighs roughly 58.8# currently. She is such a very pretty girl with a fluffy gray and white coat and a very poofy tail. Cleo is the biggest cuddle buddy you could ask for! She loves to be by your side through any adventure you may have to endure. Cleo is quite the communicator! In typical Husky fashion, she is not afraid to voice her thoughts and feelings. Cleo would make an excellent addition to just about any family but would most likely do better with older kids. With any rescue, training and socialization are incredibly important to the success of the dog. Apply for Cleo today!

Do you have a love for cats and dogs and have been thinking it would be nice to help out at CCHS? Well, now's your chance! Whether it's a few hours a week, one day a month, or something in between, this is your opportunity to try it out. We are very much in need of volunteers! You can learn more and sign up on our website: <https://www.cchs-petshelter.org> /volunteer or email April at [cchsoutreach1@gmail.com](mailto:cchsoutreach1@gmail.com). Come join our CCHS volunteer family!

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle.
