Jackson County Broadband Workgroup Update

Take a simple internet speed test to help plan for future grants

Access to broadband is vital for the economic health and growth of our area. The Jackson County Broadband workgroup is leading the charge to build community support and apply for grant funds to fill the gaps in service. One of its latest efforts is to promote a simple internet speed test.

"The speed test was announced several weeks ago, and so far we have data from 247 unique locations," stated Jeff Amo, Chair, Jackson County Board of Supervisors. "That's a great start toward our goal of 950 locations. But we need more residents to participate. What is learned through resident participation will help in future grant applications."

To take the test, residents and businesses simply need to visit the Jackson County website at <https://www.co.jackson.wi.us/> At the upper right-hand side, click on "Broadband" to go to the speed test link. It will only take a few moments and address information is protected and never shared. Take the test from your home computer. It can also be taken from cell phone wi-fi, but turn off your phone provider's wireless data service.

Even those residents without internet access can help by logging onto the site from a friend's home or the local library. Click on "Enter an address with No Available Service" to complete the survey.

After submission of four funding applications to the Public Service Commission of Wisconsin on March 17th, the Broadband Workgroup held an update meeting with community stakeholders on April 21st. It will be learned in early Summer if projects are funded. At an April 28th meeting, the Workgroup finalized plans to reach out to area broadband providers for collaborative talks on future projects. On May 16th, Workgroup representatives will meet with the Jackson County Town's Association.

AND GOD SAYS . . .
 In Romans 1:20, God has declared that we are without excuse for rejecting Him. I had always understood that we were without excuse because we refused to recognize God's invisible qualities which were clearly seen in creation.

But I have come to believe that we are without excuse because we reject God's complete revelation to us, not just in creation. You see, in verse 17 we are told that a "righteousness from God is revealed" in the gospel. Secondly in verse 18, God says that "the wrath of God is being revealed from heaven against all the godlessness and wickedness of men." God then says in verse 19 that "what may be known about God is plain to them, because God has made it plain to them."

And how did God make it plain to us. Well, first He revealed a righteousness. Second, He is continuing to reveal His wrath against godlessness. And thirdly, He made His invisible qualities clear to us through creation. So because we have rejected this complete revelation, we are without excuse.

But how have we responded? We "suppress the truth by [our] wickedness." Romans 1:18. We do this when we mock His righteousness as being uncool, old fashioned, not fun, etc. We refuse to acknowledge that the issues of immorality, dishonesty, violence, hopelessness, emptiness, inflation, increased diseases, poverty, broken families, abortion, gender identity confusion, etc., we are facing are really about God giving us over to our own sinful desires, which is an expression of His wrath.

Finally, we have given ourselves over to a godless life by accepting the Satanic teaching of evolution, which is non other than the denial of God as creator. And because we have rejected Him as creator, we have also rejected His authority in our life. In so doing we have volitionally given up our God given purpose in life, our God given hope for the future, and God as our provider for our life in the present.

And if this is true, it necessarily means that the only hope for our lives, our nation and the future of this world, is to return to faith in God. Without Him, we will continue to experience His wrath in greater and greater measure through our futile thinking and seared consciences (Romans 1:21). To me, there seems to be only one good choice. What do you think?
